Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 15-17 are, drawn to a method (claimed device in claim 4 and radiotelephone in claim 15) for processing streams of information symbols *to be transmitted (a transmitter)*, classified in class 375, subclass 295.
 - II. Claims 45—50 are, drawn to a method (claimed device in claim 11 and radiotelephone in claim 18) for processing streams of information symbols *from a received signal (a receiver)*, classified in class 375, subclass 316.

The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given above and acquire a separate status in the art as shown by their classifications, search required for Group I is not required for Group II, search required for Group II is not required for groups I, therefore, restriction for examination purposes as indicated is proper.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
